# HAHT-IUS 2024

A Collaborative Indo-US Workshop

## Harnessing AI for Healthcare Transformation

16<sup>th</sup> to 18<sup>th</sup> December 2024

### About the Workshop:

The 21st century is witnessing a digital revolution that is poised to reshape healthcare. Artificial Intelligence (AI) stands at the forefront of this transformation, with its applications rapidly expanding across the globe. The recent establishment of an AI city in Hyderabad and the U.S. President's executive order on AI underscore the pivotal role AI will play in improving quality of life.

This three-day workshop brings together leaders from India and the U.S. to:

- Present cutting-edge AI research in healthcare.
- Develop a collaborative research roadmap to accelerate AI-driven improvements in healthcare outcomes, efficiency, and affordability.
- Forge strategic partnerships to leverage joint investments in AI and maximize mutual benefits.

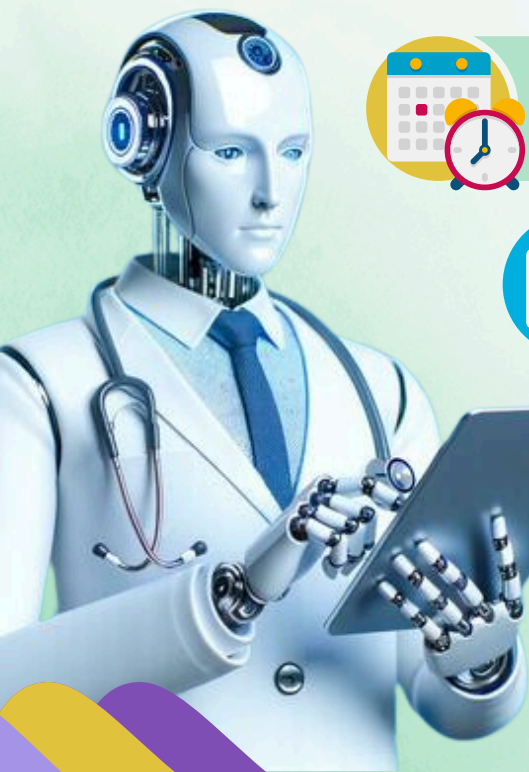

By fostering collaboration and knowledge exchange, this workshop aims to pave the way for a future where AI-powered healthcare solutions enhance the lives of people worldwide.

### Intended participants:

This workshop is intended for faculty and students from academic institutions, persons from R&D organizations, industries and medical practitioners.

### Registration:

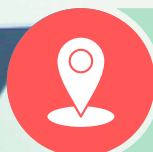

Early registration is recommended due to the limit on the number of participants. Participants are requested to bring valid ID cards from their respective organizations.
